

Smartphone instructions for Samsung BlackJack (i607)

Enabling Bluetooth on UME36:

1. From the main menu, select “Services” => “Admin Settings” and enter password “ADMIN333” and choose F3 to confirm.
2. Choose “Connectivity” => “Bluetooth Support”, and check “Use Bluetooth Dongle”. Select right arrow to save settings. (Please note Bluetooth supported in Application versions 1.0.3.4 ST and higher)
3. Insert Bluetooth Dongle in “USB Ext.” port on top of the UME36.

Enabling Bluetooth on the BlackJack:¹

1. On the main menu of the phone, open “Start” => “Settings”
2. Open the “Connections”, then “Bluetooth” => “Bluetooth”
3. Check both boxes “Turn on Bluetooth” and “Make this device visible to other devices”, then select “Done”
4. Set BlackJack’s Bluetooth name by opening “Start” => “Settings” => “Connections” => “Bluetooth” => “My information setting” => “Device name”
5. Select “Start” => “Settings” => “Connections” => “Beam”
6. Check “Receive incoming beams” box, then select “Done”.

Transferring Phonebook to the BlackJack:

1. Select Source and Target phone as normal. Target will be “Samsung GSM”=> “i607 / BlackJack”
2. Start the transfer, select the “>” arrow on UME36 when prompted to upload the Client. Choose “>” arrow again when prompted to activate Bluetooth.
3. UME36 will detect all Bluetooth devices within range. Select SGH-i607 in the menu and click OK.
4. BlackJack will prompt to pair with UME36, click “Yes” on BlackJack and enter pin code “0000 and click next. **VERY IMPORTANT:** Make sure the BlackJack displays “Info: Your Smartphone has connected with UME36”²
5. Finish adding the UME36 as a Bluetooth device by accepting all prompts on the BlackJack.
6. Click “>” arrow on UME36 when prompted to finish adding the UME as a new Bluetooth device.
7. UME36 will upload client, click “yes” on BlackJack when prompted to accept.
8. To install the client from the main menu of the BlackJack, select “Start” => “Applications” => “File Explorer” and open the “celebrite.exe” program from “My Documents” folder. Select “yes” to confirm unknown publisher.
9. Select “>” arrow twice on the UME36 to finish transferring the phonebook.

¹ Press F1 on the UME for help instructions if needed.

² Pairing and adding the UME36 device to BlackJack Bluetooth devices is very important. If you do not see the prompt in step #4 above, try again.
